

The University of Tennessee Health Science Center College of Graduate Health Sciences College Policies

Document Name: Inclement Weather
Effective Date: August 25, 2015
Document Status: Approved

Purpose

The purpose of this policy is to provide the procedures in the event of inclement weather.

Policy Details

The UTHSC administration determines when a campus is closed because of inclement weather and announces that status by a telephone hotline (901-44UT ICE or 901-448-8423) with up-to-the-minute information. Appropriate information may also be communicated to local television and radio stations, but the hotline is the official source for information.

When a campus is closed, all CGHS classes and other activities occurring on the campus are cancelled. CGHS faculty and students working at other locations (e.g., St. Jude Children's Research Hospital or VAMC) are subject to the policies of the resident location.

Policy Scope

Applies to all CGHS students, postdocs, faculty, and personnel.

Related Policies

none
